JEXtream BY FRANKLIN ACCESS

DEPENDABLE 5G, DELIVERED AS ONE PROGRAM.

The **JEXtream line from Franklin Access** gives your sites, vehicles, and field teams dependable connectivity through 5G mobile hotspots, 5G fixed wireless access, and industrial routers, with cloud-based device management across the whole fleet. XGen Mobile delivers it as one managed program.

5G and 4G LTE | Wi-Fi 6 and Wi-Fi 7 | Fixed Wireless Access | Cloud Device Management | Bulk and Wholesale

Connect. Manage. Scale.

Hotspots, routers, and fixed wireless access, managed from one cloud console. Bulk and wholesale orders are available on the full JEXtream line.

WHAT IT DOES

Connectivity for the way your business runs

At the Site
5G fixed wireless access routers for primary internet or wired backup. Plug and play setup with no trenching and no wait for a circuit.

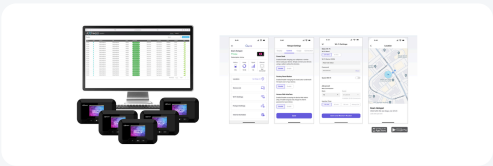
On the Go
Portable 5G hotspots for travel, crews, and field work, with multi-device support and long battery options for full shifts.

Across the Fleet
Secure, scalable connectivity for teams and branches, with centralized device lifecycle control and MDM ready operations from day one.

Industrial and Edge
Mounted 5G routers built for vehicles, remote sites, and always on installations, with wired Ethernet for on-site equipment.

Bulk and Wholesale Orders
Volume orders are available across the JEXtream line and on device management licenses. Tell us the quantity and the carrier and we will quote it.

One Solutions Partner
XGen Mobile is a Franklin Access Authorized Agent. Devices, activation, management, and support run through one program and one point of contact.



JEXtream MDM: every device visible, every device managed

Cloud based device management covers the fleet from a single console. Provision, monitor, configure, and control compatible JEXtream hotspots remotely, with visibility into status, usage, and location across every site and every crew.

Detect. Alert. Respond.
