

A SILENT CALL FOR HELP, IN EVERY ROOM.

XGen Connected Response gives housekeepers and staff who work alone a discreet, wearable way to summon help from any guest room, and pinpoints exactly where they are so security arrives fast. It connects to 911 when needed and helps you meet state and city hotel-worker safety laws.

For staff working alone

Locates the exact room

Helps meet hotel-worker laws

Wearable panic device

Protect lone staff. Locate the room.

Housekeepers and lone staff summon help from any guest room, pinpointed so security arrives fast.

Every room

A call for help within reach on every floor

Lone workers

Built for staff who work by themselves

911

Direct routing with the verified property location

Hotel-worker safety laws vary by state and city. This is general information, not legal advice; confirm your local requirements.

WHY IT WORKS

Protection for staff who work alone

Wearable and Discreet

A wearable panic device summons help from any guest room.

Immediate Response

Summons on-site security with real-time coordination.

Direct 911 Connection

Connects to 911 with the verified property location when needed.

Locates the Exact Room

Pinpoints where the alert came from so help arrives fast.

Helps Meet Mandates

Supports state and city hotel-worker safety requirements.

Property-Wide Alerts

Coordinated alerting across floors and back-of-house.

The wearable and wall-mounted panic button

A discreet, deliberate multi-press activation silently triggers a coordinated response and sends verified, location-aware alerts to staff and 911 in real time. No audible alarm, no escalation.

Detect. Alert. Respond.
