

KEEP EVERY LONE OPERATOR SAFE, PAD TO PIPELINE.

Oil and gas crews work alone in remote, hazardous conditions where minutes matter and connectivity can't fail. One **cellular wearable** gives manual SOS alerts, automatic fall detection, live location, and automated hours, with same-day deployment and no on-site infrastructure.

Plug and play

Deploys in days

Nationwide cellular

Same-day deployment

Protect lone operators, pad to pipeline.

One clip-on cellular device for worker safety, live location, and automated timekeeping in remote conditions.

7x

Oil & gas extraction fatality rate vs. the U.S. average (NIOSH, 2003-2013)

Remote

Crews operate alone, far from the nearest responder

1

Platform for safety, time, and productivity

Fatality rate: U.S. NIOSH, 2003-2013.

WHAT IT DOES

Protection for lone operators in remote conditions

Worker Safety

Manual SOS alerts, automatic fall detection, and lone-worker check-ins.

Automated Timekeeping

Hands-free hours on remote pads and night shifts, no punch cards.

Real-Time Metrics

Safety, attendance, and productivity as they happen in the field.

Reaches Remote Sites

Live location on nationwide cellular where responders are far away.

Workforce Management

Put the right crew on the right task and reinforce protocols.

Zero Infrastructure

Runs on nationwide cellular, deploying the same day.

The wearable SOS and panic device

A rugged, cellular-connected wearable with a deliberate multi-press SOS, automatic fall detection, and live location, so a worker in distress gets help in seconds, not shifts.

Detect. Alert. Respond.
